TERM	DEFINITION
1. Abuse	Abuse is the use of force or power to harm or control another person. It can be physical, emotional, or financial.
2. Aggression	Aggression is a behavior that is intended to cause harm or injury to another person. It can be physical or verbal.
3. Altruism	Altruism is the selfless concern for the well-being of others. It is the act of helping others without expecting anything in return.
4. Anger	Anger is a strong emotion that is often caused by a perceived wrong or injustice. It can be a natural response to a situation, but it can also be a sign of a deeper problem.
5. Anxiety	Anxiety is a feeling of worry, nervousness, or uneasiness about something with an uncertain outcome. It can be a normal part of life, but it can also be a sign of a mental health condition.
6. Assertiveness	Assertiveness is a way of communicating that is confident and direct. It involves expressing your thoughts and feelings in a clear and honest way, without being aggressive or passive.
7. Attention	Attention is the mental focus on a particular object or task. It is a necessary part of learning and problem-solving.
8. Autism	Autism is a developmental disorder that affects the way a person communicates and interacts with the world. It is a lifelong condition, but it can be managed with therapy and support.
9. Behavior	Behavior is the way a person acts or conducts themselves. It is the result of a combination of internal and external factors.
10. Bullying	Bullying is the use of force or power to harm or control another person. It can be physical, emotional, or financial.
11. Calculus	Calculus is a branch of mathematics that deals with the study of change. It is used to calculate the area under a curve, the volume of a solid, and the rate of change of a function.
12. Chemistry	Chemistry is the study of the properties and behavior of matter. It is a branch of science that deals with the composition, structure, and properties of substances.
13. Communication	Communication is the process of exchanging information or ideas between two or more people. It can be verbal or non-verbal.
14. Compassion	Compassion is the feeling of sympathy and concern for the suffering of others. It is the desire to help and comfort those who are in pain.
15. Confidence	Confidence is the belief in one's own abilities and qualities. It is a feeling of self-assurance and trust in oneself.
16. Conscience	Conscience is the inner sense of right and wrong. It is the part of the mind that tells us when we have done something wrong and when we have done something right.
17. Control	Control is the power or influence over someone or something. It is the ability to direct or manage a situation.
18. Cooperation	Cooperation is the act of working together with others to achieve a common goal. It is a key part of many social interactions.
19. Courage	Courage is the ability to face fear, pain, or adversity. It is the strength of mind and spirit that allows us to stand up for our beliefs and values.
20. Creativity	Creativity is the ability to think of new and original ideas. It is a key part of many creative industries, such as art, music, and design.
21. Critical Thinking	Critical thinking is the ability to analyze information and make a judgment about its value. It is a key part of many academic and professional fields.
22. Culture	Culture is the set of beliefs, customs, and behaviors that are shared by a group of people. It is a key part of a community's identity.
23. Curiosity	Curiosity is the desire to learn and know more about the world. It is a key part of many scientific and academic pursuits.
24. Decision Making	Decision making is the process of choosing between different options. It is a key part of many everyday activities.
25. Defiance	Defiance is the act of resisting or opposing authority. It is a key part of many social movements and revolutions.
26. Democracy	Democracy is a system of government in which the people have the right to elect their representatives. It is a key part of many modern societies.
27. Depression	Depression is a mental health condition that is characterized by feelings of sadness, hopelessness, and loss of interest in life. It is a common condition that affects many people.
28. Development	Development is the process of growing and changing. It is a key part of many scientific and academic fields.
29. Discipline	Discipline is the act of training or controlling oneself. It is a key part of many academic and professional pursuits.
30. Disrespect	Disrespect is the act of treating someone in a way that is not respectful. It is a key part of many social interactions.
31. Distance	Distance is the amount of space between two points. It is a key part of many scientific and academic fields.
32. Distraction	Distraction is the act of being pulled away from a task or activity. It is a common problem that affects many people.
33. Distress	Distress is a state of emotional or physical suffering. It is a key part of many mental health conditions.
34. Divide	Divide is the act of separating or splitting something into two or more parts. It is a key part of many mathematical and scientific fields.
35. Domestic Violence	Domestic violence is the use of force or power to harm or control another person. It is a common problem that affects many people.
36. Drugs	Drugs are substances that are used to treat medical conditions or to alter the mind. They can be legal or illegal.
37. Dynamic	Dynamic is a term that describes something that is constantly changing or moving. It is a key part of many scientific and academic fields.
38. Economics	Economics is the study of the production, distribution, and consumption of goods and services. It is a key part of many social and academic fields.
39. Education	Education is the process of learning and gaining knowledge. It is a key part of many social and academic fields.
40. Emotion	Emotion is a feeling or state of mind. It is a key part of many social and academic fields.
41. Empathy	Empathy is the ability to understand and share the feelings of others. It is a key part of many social and academic fields.
42. Energy	Energy is the ability to do work or produce heat. It is a key part of many scientific and academic fields.
