Manufacturing & Assembly Statement:

This is to certify that the cosmetic products listed above are legally manufactured under the responsibility of Cellese, Inc., as detailed below.

In-House Manufactured Products:

The following products are manufactured, filled, assembled, and packaged directly under Cellese, Inc.'s internal manufacturing operations and quality management system:

- AnteAGE MD Exosome Hair Solution (6 Pack)
- AnteAGE MD Exosome Brightening Solution (6 Pack)
- AnteAGE MD Exosome Solution (6 Pack)
- AnteAGE MD P.E.A.R.L. Advanced Cell-Signaling System with Exosomes

These products are produced in facilities operating in compliance with ISO 22716 (Cosmetic Good Manufacturing Practices) and applicable cosmetic regulatory requirements. Cellese, Inc. maintains full oversight of formulation, lyophilization where applicable, filling, assembly, primary packaging, labeling approval, batch release, and market authorization.

Contract Manufactured Product:

The Biosomes Sheet Mask (AAMDXMASK10PK) is manufactured on a contract/white-label basis for Cellese, Inc. by a qualified third-party Contract Manufacturing Organization (CMO) operating in compliance with ISO 22716 (Cosmetic GMP) and applicable cosmetic manufacturing requirements.

Primary manufacturing activities for this product include formulation, impregnation of the sheet mask substrate, filling, sealing, and primary packaging. Final product approval, labeling authorization, and market release are performed under the regulatory and quality oversight of Cellese, Inc.

**Raw Materials, Components & Substrates:**

All raw materials used are cosmetic-grade and suitable for topical application. The Biosomes Sheet Mask utilizes a biodegradable biocellulose mask substrate. Packaging materials, including cartons, are produced using recycled paper materials where applicable and comply with relevant regulatory requirements.

**Product Classification & Market Status:**

All products listed are cosmetic products intended for external topical use only. They do not contain medicinal substances and do not make drug, therapeutic, or pharmacological claims. These products are legally manufactured and freely sold in their country of origin and other international markets under the responsibility of Cellese, Inc.

**Declaration:**

This Manufacturing Statement is issued to support Free Sale Certificate applications. The information provided herein is true, accurate, and complete to the best of our knowledge.
