SIGNATURE:		<div> Connor Collins VPO</div> <p>Cellese is committed to upholding our rigorous quality standards. As part of our standard protocol, we strongly recommend storing and transporting all of our products in a temperature-controlled environment. Particularly during months of elevated heat, it is advised not to store or transport our products above room temperature for extended periods of time. Please note that the company cannot be held responsible for any adverse effects on the products that arise from not adhering to these storage conditions.</p> <p>Please note that for certain SKUs for any long term storage we also recommend refrigeration to extend shelf life. These SKUs are AnteAGE MD Brightener, AnteAGE MD Brightening Solution, and AnteAGE MDX Exosome. We do not recommend freezing our products.</p>
