r Sinclair - Compare Column N vs Column Q. if price is different, override Column N value.
others - Compare Column N vs price on Order confirmation (not PT). If value is different, override Column N value.

event rounding errors from affecting the work is by using the Precision as displayed option. This option forces the value of each number in the worksheet to
ayed value. To turn on this option, follow these steps:

Microsoft Office Button -> Excel Options -> Advanced
» When calculating this workbook section, select the workbook you want, and then select the Set precision as displayed check box.
