CERTIFICATION OF FUMIGATION

This is to certify that the following container(s) have been fumigated, in accordance with the label directions of METH-O-GAS (methyl bromide) EPA REG #5785-11, for 24 hours by Ecolab, Inc. at 12:30 PM on 12/18/2024. The content of the fumigated container was WOOD. The name of the licensed applicator was John Haig. The rate of application was 3 Lbs. per 1,000 Cubic Feet. Time and date of clearance for re-occupancy was determined by Nick Rastorfer on 12/19/2024. A gas detection apparatus was used for detecting concentrations at or below the threshold limit value (TLV). The TLV for METH-O-GAS (methyl bromide) EPA REG #5785-11 is 5.0 ppm, and the end concentration in the fumigated structure was 0.0 ppm. We confirm the target of the fumigation conforms to the plastic wrapping, impervious surface and timber thickness requirements at the time of fumigation.

Product Description: WOOD

Customer Po:

Container(s) EGSU 9761075, FSCU 4989300 & EHG U 9307095

Temperature: 65°

Ecolab SPS: BY _____ Date: 1/6/2025

A handwritten signature in black ink, appearing to read "Ashley Dawey", written over a horizontal line.
