GENERAL TERMS AND CONDITIONS OF SALE

Our products shall solely be supplied on the General Terms and Conditions of Sale provided for herein, without prejudice to any departure here from expressly acknowledged by us in writing. The General Terms and Conditions of Sale provided for herein shall also apply to all future supplies of products, even in the absence of further notice, until they are amended by us; the General Terms and Conditions of Sale provided for herein render null and void any and all terms and conditions of the Purchaser which are fully or partially in conflict herewith. Furthermore, the application of the ONU Convention adopted in Vienna on 11th April 1980 to our contracts of sale is hereby expressly excluded.

2. Our offers shall not automatically give rise to any commitment on our part to execute the corresponding order inasmuch as the related contract will only be entered into by means of our written confirmation of order or by means of the execution of the order in question.

3. Sales shall be carried out at the prices indicated in the offer unless otherwise notified in writing prior to the execution of the supply. In the event of any increase in price, the Purchaser shall be entitled to terminate the contract by means of written notice to be given within 3 days commencing from the notification of the new prices.

4. The delivery terms are to be considered as non-binding and as being furnished without engagement on our part.

5. The data as to the percentage content and mixture ratios of our products are to be considered as approximate average values only. Express reservations are hereby made as to differences within the possible allowance limits on a case-by-case basis, such differences being unavoidable despite the utmost care taken in the manufacture of the products and in the determination of the values.

6. The technical-application consultancy services rendered by us in accordance with our know-how, are based on our research studies and experience. All the data and information as to the suitability and fields of application of our products are furnished without our thereby undertaking any responsibility or liability and in any event do not exonerate the Purchaser from carrying out its own checks and experiments in relation thereto. We do not furnish any explicit or implicit warranties in regard thereto, other than those expressly provided for in the technical-qualitative specifications in force on the date of delivery of the goods and, in any event, our liability shall be limited to the replacement of the goods supplied, in compliance with that which is provided for under Clause 9 herein below. In using our products, the Purchaser shall be exclusively responsible for compliance with legislative provisions and regulations issued by any competent authority.

7. No warranties are hereby furnished with regard to the fact that the products supplied do not infringe the patents, rights of any third party, including patents as to applications.

8. Complaints regarding shortages in quantity, defects in the goods supplied due to differences with respect to the technical-qualitative specifications and obvious and hidden defects of the goods and the packing thereof, for which we are liable in accordance with the terms and conditions set forth herein, must be made in writing within a time limit of 15 days which may not be extended and which will commence from the date of the receipt of the good at the place of destination. Complaints may only be submitted with regard to products, which have been kept in their original packing. The Purchaser shall be required to keep the allegedly defective goods separately and make them immediately available to us in order to allow us to make the necessary checks. The foregoing is, however, without prejudice to the provisions of Italian Law with regard to the method and time limits in accordance with which the examination of the goods must be carried out and the related notices must be given, as well as with regard to the measures to be adopted in the event of refusal of the goods sold.

9. In the event of justified complaints, our liability shall be confined to the supply of the missing quantities or the replacement of the goods, and therefore any liability for other immediate or consequential damages, including damage to third parties, is hereby expressly excluded. If it is not possible to replace the goods, we shall confine ourselves to agreeing to the collection of the goods and to granting a full or partial reduction of the price.

10. In the case of bulk cargo sales an allowance of plus or minus 0.5% with respect to the quantity ordered will be allowed.

11. As from the delivery of the goods to the carrier, the Purchaser shall undertake any and all risks both losses or damage during the transport and as to injury to persons and damage to things or to the environment deriving from carriage, storage and use of the goods, including if made together with any other product. The foregoing also applies if we carry out the carriage at our expense. Complaints about any damage during carriage of the goods must be made by the Purchaser to the carrier within the time limits provided for by law. With regard to the interpretation and construction of terms used in trade practice, such as FOB, CI F, C&F, etc. reference should be made to the most recent version of Incoterms.

12. Unless otherwise agreed, the choice of the route and method of shipment shall be made by us at the risk of the Purchaser. In the event of carriage free deliveries, any increase in carriage costs after the execution of the contract shall be payable by the Purchaser.

13. Wars, unavoidable disturbances affecting production, strikes, lock-outs, lack of electricity/power or raw materials, traffic stoppages orders issued by higher authorities, including those which render the performance of the transaction uneconomical, as well as all other cases of force majeure, including those concerning our suppliers, shall release the Company from its undertaking to supply, throughout the duration of any such event and to the extent of the consequences thereof, without thereby giving rise to any obligation as to supplementary supply. Such events shall authorize us to terminate the contract in full or in part, without thereby entitling the Purchaser to compensation.

14. The terms of payment established in the offer or subsequently notified prior to the execution of the delivery shall be deemed valid and applicable. Any expenses connected with the payment of the purchase price, including Bank charges shall be payable by the Purchaser.

15. The Purchaser may not carry out any form of offsetting or exercise any right to withhold payments without our prior written consent.

16. In the event of any doubt as to the solvency of a Purchaser especially in the event of any delay in payments, prior to carrying out further deliveries we shall be entitled to request payments in advance or guarantees covering our receivables. If Purchaser is in default in the fulfillment of its obligations, we shall be authorized, duly reserving full rights to charge interest on arrears on a percentage basis equal to three hundred basis points above the European Central Bank marginal landing facility rate, as well as to suspend supplies, even if such suppliers are already in the process of being shipped, as well as to revoke the terms of payment granted for deliveries already made.

17. Property in the Products supplied shall not pass to the Purchaser as long as he has not entirely settled the payments in full of the price of the Products supplied and of all other Products in the ordinary course of its business. The Purchaser's right to possession of the Products shall expire if he not being company commits an available act of Bankruptcy or being a company does anything or fails to do anything which would entitle a Receiver to take possession of any assets or which would entitle any person to present a Petition for Winding-Up. Once this permission to dispose of our Products expires we reserve our right to require the Products to be immediately returned to us at the Purchaser's cost – without the need to exercise a formal opting-out as a lien for all unpaid debts due from the Purchase to us. At our request the Purchaser will make available to us all necessary information with regard to the stock of the Products of our property stored at the Purchaser's premises. In case of delay in payments or in any case of failure to pay we shall be entitled to withdraw from the contract by informal notice to the Purchaser, without prejudice to our other rights and remedies. If the legislation of the country where the Products supplied are stored does not allow for retention of ownership, we shall reserve our right to ask the Purchaser for an equivalent warranty. Finally Purchaser is obliged to cooperate to the extent necessary and permissible under the relevant law in order to safeguard our credit and to inform us immediately in case a third party should assert rights which may be of prejudice to our credit.

18. The invalidity or unenforceability of individual clauses shall not invalidate the remaining clauses of the contract of sale. Invalid or unenforceable clauses shall be replaced by others in accordance with which the economic objectives of the contracting parties shall be attained in a juridically valid and performable manner. The applicable provisions of law in force in Italy shall govern all matters not provided for in these general terms and conditions and shall apply to and govern the contracts of sale insofar as they are not incompatible therewith.

19. The place of fulfillment of payment obligations in the case of all payments due by the Purchaser shall be the registered office of 3V SIGMA Europe, S.r.l. in Italy. All disputes in anyway connected with the individual contracts of sale, as well as the interpretation, construction and application of the General Terms and Conditions of Sale provided for herein shall be subject to Italian law and to the sole jurisdiction of the Court of Bergamo. We hereby reserve the final and unobjectable right to apply to the competent Court of the Purchaser with due application of the national law of the Purchaser.
