Rubicon Bridge have completed a comprehensive review of the following artwork and are now able to confirm that this artwork has achieved “Rubicon Bridge Verified” status.

Product Name	EK2227 Vitamin C and Quercetin
Client	Life Extension
Target Market(s)	UK, DE, FR, IT, ES, NL
Language(s)	As above
SKU	250 tablets (main label and base label)

Rubicon Bridge is a UK and EU regulatory technology tool that helps companies to understand and comply with a variety of regulatory requirements. The Verified Status is issued to demonstrate that the artwork has been through a comprehensive two-person review process and amended until all issues identified have been resolved.

The Rubicon Bridge artwork review is based on current regulatory and industry practice for the target market. It ensures compliance with Regulation (EU) No 1169/2011 (Food Information to Consumers), EU Directive 2002/46/EC (Food Supplements), Regulation (EC) No 1924/2006 (Nutrition and Health Claims), and any other pieces of relevant legislation, plus any national requirements in the target market.

As part of the review, the artwork is reviewed for consistency with the manufacturing documentation provided by the client.

The verified status expires after 2 years; once expired, the artwork should be re-submitted for review to ensure it remains consistent with any changes in the law, guidance or interpretation.

Please note that the verified status is not an endorsement or approval of the product, or a guarantee of the legality of the product. Additionally, Rubicon is only evaluating the artwork provided by the client and is not evaluating additional marketing information, which may include, but is not limited to, website or social media information. It remains the responsibility of the Food Business Operator to ensure that the product placed on the market, and all advertising material, meets the legal requirements.
