FACTORY TEST CERTIFICATE

AbSim serial # 2401 was fully evaluated at our factory on March 15, 2024, immediately prior to packing and shipment.

ACDET certifies that every one of this unit's training modules/milestones were fully functional at that time.

VENDOR EVALUATION UPON ARRIVAL OF SHIPMENT

AbSim was specifically designed to enable vendors, the vendor's sales force, and end users (health professions students and faculty) to fully operate AbSim just by following the five milestones listed on its home page.

ACDET very strongly recommends that vendors fully evaluate each AbSim unit shortly upon arrival to determine if any deficits/malfunctions occurred during shipment. We are fully prepared to support vendors in performing this evaluation via a scheduled video conference call.

ACDET also highly recommends that those individuals serving as the vendor's AbSim sales force be present at this initial evaluation so that they can ask any questions about AbSim's training capabilities and thereby be fully confident in their ability to effectively demonstrate AbSim to potential clients.

Our experience is that it takes approximately thirty minutes to fully evaluate AbSim's functional integrity following shipment, and an additional 30 minutes to answer any questions that the vendor's sales force might have regarding how to operate AbSim.

If needed, ACDET is happy to schedule two separate video calls, with the first intended to support the vendor's evaluation of AbSim's functional integrity following shipment, and a second to train the vendor's sales force.

Please contact papa@acdnet.com to schedule these evaluations.

Ashley Payne

DEFICITS OR MALFUNCTIONS

AbSim's modular hardware makes it very easy for our engineers to work with vendors via a video conference call to identify deficits and/or malfunctions arising from shipping and arrange for free replacement parts.

ACDET also provides free replacement parts for deficits/malfunctions occurring within the first year of AbSim use at institutions/organizations that purchased an AbSim unit from a vendor.

Institutions/organizations purchasing AbSim from a vendor will receive free video conference call-based guidance in the identification of such deficits.

Please contact papa@acdet.com to schedule guidance via a video conference call.

PARTS LIST

AbSim contains over 450 parts. Due to rapidly changing costs for parts, it is not possible to provide a cost per part list.

Please contact papa@acdet.com to discuss the purchase of replacement parts following the end of ACDET's one year free replacement policy.
