The Applicant (or the Applicant on behalf of the Consignor), by utilizing this document, certifies that: The above-mentioned goods originate in the country(ies) specified above and comply with the rules of origin applicable in the country(ies) to those goods.

The information in this certificate and in any documents provided to the Los Angeles Area Chamber of

Commerce ("LAACC") is accurate, true and complete.

The Applicant undertakes to advise LAACC and any other person(s) to whom the applicant provides this Certificate (or to whom the Certificate is provided to with the knowledge of the Applicant) promptly in writing of any inaccuracy, omission or change in such information, or in the origin of goods.

-The Applicant will maintain, and present upon request, such documentation as is necessary to verify the truth, accuracy and completeness of this certificate and accompanying documents.

-In consideration for the LAACC's issuance of this Certificate, the Applicant agrees to release, discharge and hold harmless LAACC from any liability in connection with the issuance of this certificate and to indemnify LAACC in respect of any costs and/or claims made against LAACC in connection herewith.

-The Applicant is authorized to give the undertakings set out herein.

Veterinary Health Certificate for Export of Amphibians, Aquatic Mammals, Live Fish, Shellfish, and Crustaceans from the United States of America to the United Arab Emirates

Veterinary Authority

UNITED STATES DEPARTMENT OF AGRICULTURE

Date Of Issue February 29,2024

Certificate Number 4069367234

Cortification Statements:

I, the undersigned USDA Accredited Veterinarian, certify that the live animals described above meet the following conditions:

In the case of amphibians:

- The animals were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.
- The animals have been tested with negative results for salmonella at least 15 days and not more than 60 days prior to export.
- 3. The container in which the animals are transported is new or has been cleaned and disinfected. The transport water that is used is sourced from the premises of origin of the animals, or has been treated in a manner that will prevent the introduction of the diseases of concern listed on this certificate.
- 4. In the case of frogs or salamanders, the animals originate from an establishment with no reported cases of ranavirus within 60 days prior to export.

In the case of aquatic mammals:

 The animals were examined by a USDA Accredited Veterinarian within 7 days prior to export and showed no clinical signs of contagious or infectious diseases, including skin diseases, internal and external parasites, and brucellosis.

In the case of live fish including ornamental fish:

- The fish were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.
- 2. The fish originate from an establishment with no reported cases of epizootic hematopoietic necrosis (EHN), epizootic ulcerative syndrome (EUS), infection with Gyrodactylus salaris, (SAV), infections with infectious salmon anemia virus (ISA), infection with salmonid alphavirus (SAV), infectious hematopoietic necrosis (IHN), koi herpesvirus disease (KHV), red sea bream (VHS) within 60 days prior to export.
- 3. The container in which the fish are transported is new or has been cleaned and disinfected. The transport water that is used is sourced from the premises of origin of the fish, or has been treated in a manner that will prevent the introduction of the diseases of concern listed on this certificate.

In the case of crustaceans:

- The crustaceans were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.
- 2. The crustaceans originate from an establishment with no reported cases of white spot disease (WSSV), crayfish plague (Aphanomyces astaci), infection with yellow head virus genotype 1 (IMNV), infectious hypodermal and hematopoietic necrosis (IHHN), infectious myonecrosis tail disease (Macrobrachium rosenbergii (Hepatobacter penaei), Taura syndrome (TSV), white (AHPND) within 60 days prior to export.
- 3. The container in which the crustaceans are transported is new or has been cleaned and disinfected. The transport water that is used is sourced from the premises of origin of the crustaceans, or has been treated in a manner that will prevent the introduction of the diseases of concern listed on this certificate.

In the case of shellfish:

 The shellfish were examined within 7 days prior to export and showed no clinical signs of bacterial or fungal diseases.
