Note: Routine testing of finished products for yeast, mold and coliform is completed by an ISO accredited laboratory or internally by a proficient employee. The results must meet the typical microbiological analysis set forth by the Finished Product Testing Procedure. The satisfactory results of these tests validates the effectiveness of the Sanitation Policies and in conjunction with the Quality Control Procedures and requirements of Suppliers to provide COA's for raw ingredients and COC's for packaging components ensure the product conforms to our HACCP & Food Safety Plans. If results indicate an unacceptable level, the customer will be notified immediately.
