TO WHOM IT MAY CONCERN:

Please be advised that as a pharmaceutical manufacturer, the FDA holds Natureplex Pharmaceuticals to compliance with current good manufacturing practices for finished over-the-counter medications. These are thoroughly described in the Code of Federal Regulations (specifically, Part 211). The US Pharmacopeia also covers Good Manufacturing Practices in their compendia (specifically, 1078 and 2750). These are the standards required by the FDA for our license.

Due to budget constraints within the FDA and in an effort to modernize the system, all manufacturers are now required to register on-line. The website link is:

<https://www.fda.gov/drugs/drug-approvals-and-databases/drug-establishments-current-registration-site>

By simply searching "Natureplex" under the first link "Drug Establishment Registration Search" one can establish our firm's compliance status.

Firm Name	FDA Establishment Identifier	DUNS	Business Operations	Address	Expiration Date

No longer is a paper hard copy "cGMP Facility Certificate" stating compliance being issued by the FDA. However, we do continue to be licensed and inspected by the agencies, State and Federal.

Certificate of Pharmaceutical Products (CPP) issued by the Food & Drug Administration can be obtained for each individual product provided the company is in good standing and has no violations.

We currently manufacture and have the capability to manufacture the following items: Pharmaceutical preparations, namely: medicinal creams for skincare, hemorrhoidal ointments, anti-itch cream, anti-fungal skin creams, burn relief creams, medicated diaper rash ointments and lotions, analgesic and muscle relaxant pharmaceutical preparations, and personal sexual lubricants.

If you have any questions regarding this matter, please contact Stan Smith at stan@natureplex.com or (662) 874-1378.
